Experience

Digital Marketer Intern

ZaanCreations | 2024 - Present

Created and optimized content for an apparel company. Assisted with SEO and content creation across social media and the website, contributing to increased brand visibility and improved traffic metrics.

About Me

I'm **Zameeh**, a 22 year old 3rd year **Computer Science** student at IIT with a passion for coding and a flair for design and apparel manufacturing. My academic background is complemented by hands-on project experience, allowing me to blend technical skills with creative problem-solving. As an avid freelancer, I specialize in project-based work, thriving in off-site environments where my workaholic nature drives me to deliver high-quality results.

Beyond my technical expertise, I'm dedicated to continuous learning and client satisfaction. I approach every project with a strategic mindset, aiming to exceed expectations and achieve outstanding outcomes. I look forward to leveraging my skills to contribute to innovative and successful ventures.

Projects

RateRank Project

July 2024 - October 2024

Developed an Analytical Dashboard which showcases the user data to the clientele. Along with a software which can encode data for Near-field communication projectile devices.

DressMeDaily Project

January 2024 - April 2024

AI clothing wardrobe which showcases user clothes in a mobile wardrobe.

Education

Bachelor in Computer Science

University of Westminster

September 2022 - September 2026
